Since 1954 the FAL battle rifle and it's many variants have served in every corner of the globe, in more then 90 countries. DSArms has been there for half of that history. Preserving, innovating and advancing the FAL platform.

SA58™ 16 Inch Carbine

SA58™ 18 Inch Carbine

SA58™ ORIGINAL SERIES

Today, few things can be described as “better than the original”. After many years of development and production we are confident that our SA58™ rifles exceed the quality of any FAL type rifle ever produced. We specialize in manufacturing and modernization of Proven Legacy systems like the venerable FAL rifle. Classics still have their place, so with this in mind DSA created a line of SA58™ rifles that mirror the configurations of the rifles imported into the USA during the 60’s, 70’s and 80’s which provide the look and feel of an original FAL rifle. Now it’s possible to own a reasonably priced rifle that will look and feel like a classic, and perform better than an original.

■ BREAK-OPEN ACTION

The SA58's break-open action allows for easy, breach-first cleaning. Simply actuate lock lever, the rifle breaks open exposing the slide-breech block assembly. Pull the assembly to the rear and the rifle is ready for cleaning and inspection.

■ FULLY ADJUSTABLE GAS SYSTEM

Ensures reliable functioning in a wide range of conditions, with a variety of ammo, prevents fouling and reduces premature wear to moving parts.

SA58™ RANGE READY SERIES

The DS Arms Range Ready Series of SA58™ FAL Rifles was built and configured to get you on the range and shooting right out of the box! Coming direct from the DS Arms factory with some of our most popular upgrades installed – the SAW Style Pistol Grip, Ambidextrous Magazine Release, Enhanced Winter Trigger Guard, Non-Reciprocating Left Side Enhanced Profile Charging Handle and Extreme Duty Scope Mount make the Range Ready Series of rifles the perfect choice for adding a FAL to your collection. The Range Ready Series feature a 4150 - 11595E Steel premium barrel with different barrel lengths and profiles available. This premium Mil-Spec grade barrel is mounted to your choice of our 4140 fully machined and heat treated receivers; Type 1 with or without Carry Handle Cut as well as a Type 2 with Carry Handle Cut.

The DS Arms Range Ready Series of rifles has all of the Fit, Function, Features and Quality that you have come to expect with ANY DS Arms product and is sure to be a great addition to your collection!

SA58™ I SERIES

WHEN HERITAGE ENCOUNTERS INNOVATION

The DS Arms SA58™ I Series of rifles and pistols is an improved and enhanced development of the tried and true and very successful FAL rifle in caliber 7.62x51mm NATO. Together with the historical features, reliability and ruggedness of the FAL design and the newly developed DS Arms modern upgrades the new DS Arms I Series has joined the past with the present to create the best battle rifle ever manufactured.

Chambered in 7.62x51mm NATO the DS Arms SA58™ I Series allows the user to experience real downrange power in an extremely durable and reliable firearm. An ambidextrous magazine release, larger trigger guard, modern pistol grip and extremely ergonomic non-reciprocating left side charging handle allows any user to take full advantage of the time tested FAL rifle. The receiver features a MIL-STD-1913 Picatinny Extreme Duty Scope Mount top cover to enable the mounting of a wide variety of optics.

The handguard is a slim profile M-LOK compatible design that aids in weight reduction and barrel cooling and allows the user to configure the rifle by mounting the accessories in many places without the bulk and weight of a traditional 1913 quad rail handguard.

SA58™ I.B.C.

SA58™ I SERIES

Available with several different barrel lengths, this fully adjustable gas piston operated weapon allows for easy gas adjustment and easy takedown and cleaning. All I Series models (except the I.B.P. – Improved Battle Pistol) come standard with our B.R.S. – Battle Rifle Buttstock that still allows the rifle to "Fire While Folded". The B.R.S. features side folding and L.O.P. adjustment buttons that are very ergonomic and ambidextrous. There are 7 length of pull positions making this stock comfortable for any shooter. The cheek-piece adjusts without tools, levers or turning wheels giving the B.R.S. a sleek profile and simple operation. The cheek piece features a full parallel rise with (4) 1/4" settings; and also a tilted/angled setting for use with head/helmet mounted devices or for when the shooter needs more clearance on the cheek piece.

Whether used for target shooting, homeland defense, competition or LE & Military Deployment the DS Arms SA58™ I Series has all the features you want and expect from the best battle rifle ever manufactured, without taking your chances in a flimsy untested rifle design.

SA58™ IMPROVED BATTLE RIFLE - 18" MEDIUM CONTOUR

SA58™ OSW

OPERATIONAL SPECIALIST WEAPON

The DS Arms Operational Specialist Weapon (OSW) has become the world standard for .30 caliber performance in a small package. In service with military and law enforcement units around the globe, the OSW provides battle proven performance on a modular platform that can be configured to meet any mission requirement. The OSW's compact size makes it the perfect choice for tactical units, urban operations, executive or convoy protection work. The SA58™ OSW provides a decisive edge when deploying from vehicles with the added benefit of .30 caliber superiority over 9mm SMG's and 5.56mm carbines. Operate with confidence; you will not be under equipped.

Optic sold separately

SA58™ CTC

COMPACT TACTICAL CARBINE

WARZ-M4 SERIES 5.56MM RIFLES

The DS Arms WarZ-M4 Series rifles are the pride and joy of our ZM-4 product line. Every WarZ-M4 Series rifle features a premium match barrel machined from either 416-R Stainless Steel or 4150-11595 Mil-Spec material and 5.56 Match Chamber. The 5.56 Match chamber was developed by the U.S. Marine Corps as an accurate chamber that would not sacrifice any reliability.

All WarZ-M4 Series rifles feature our enhanced A3M4 upper receiver, upgraded fire control group, ambidextrous selector switch, WarZ Series trigger guard, bolt catch and charging handle. Also standard on each WarZ-M4 series rifle is our ESC – Enhanced Sand Cut Bolt Carrier Group with our NTFE – Nickel Teflon coating. With the variety of models and features the WarZ-M4 Series of rifles has every angle and detail of the rifle thought out so you don't have to.

DSArms has been serving the International firearms community for over 30 years.

DSArms brings you the best-selling battle rifle of all time.

DSArms is a Hi-End Manufacturer of Advanced Weapon Systems Specializing in the FAL, AR/M4 & Variants. We manufacture a full assortment of parts and accessories in Lake Barrington, IL

www.DSARMS.com

To all of DS Arms Loyal Customers,

We would like to say a big Thank You to every one of you, our valued customers for your support and input over the past 30+ years. You are the reason for our success, and why we continue to proudly produce the Right Arm of the Free World. Without your support, our 100% U.S. produced SA58 FAL Rifle would never have been possible.

This has enabled us to enter into producing high quality, reliable AR15 platforms, innovative accessories and upgrades for other systems. Without this support DS Arms would not be what we are today, and for that we are grateful.

Sincerely,

David Selvaggio
