

DSA WARRIOR SERIES

The DSArms Cold Warrior Rifle Series is patterned after one of the last contract FAL's that FN produced, for the country of Bolivia. The Cold Warrior Rifle Series has a number of the features that any FAL enthusiast looks for while not breaking the bank.

Pro features at a palatable price point. Some of the Bolivian specifications that we've kept in these rifles are the Holland Style rear sight which is one of the most durable rifle sights to ever be made, the 50.63 PARA Style folding cocking handle, this cocking handle folds flat against the receiver preventing any snagging or gouging if the rifle is slung across the back. These rifles are built using the Type 3 receiver, while the original Bolivian contract called for a NON Carry Handle Cut version we elected to include the cut for end users who may want to add the carry handle feature to their rifle.
