

The DSA Z Hawk

The Ultimate Armorer's Tool

The DS Arms Z Hawk incorporates the standard AR15 armorer's tools into one of the most already versatile tools on the planet, the tomahawk! The DS Arms Z Hawk enables you to perform a variety of gunsmithing actions to your AR15 rifle. AR15 based tools incorporated into the Z Hawk include the castle nut wrench, barrel nut wrench, flash hider wrench and A2 receiver extension wrench. The Z Hawk also accepts a 1/2 driver, has a bottle opener and a lanyard loop. The Z Hawk is made from carbon heat treated steel and finished with an extremely durable powder coat finish. Handle is PARA Cord wrapped with 550 cord to allow the user the most amount of purchase possible while using the Z Hawk
