**DSA  
ZM4  
WarZ  
SERIES  
AR/M4s**

Some WarZ models contain multiple High-grade **TITANIUM** upgrades and can weigh as little as 4.5lbs!

## Introducing The Enhanced DSA ZM4 WarZ Series of AR/M4 Rifles and Pistols.

The DS Arms WarZ Series rifles are the pride and joy of our ZM-4 AR product line. Every WarZ Series rifle features a premium match barrel machined from either 416-R Stainless Steel or 4150-11595 Mil-Spec. material and a 5.56 Match Chamber. The 5.56 Match Chamber was developed by the U.S. Marine Corps as an accurate chamber that would not sacrifice any reliability. All WarZ Series rifles feature our enhanced A3M4 upper receiver, upgraded fire control group, ambidextrous selector switch and our WarZ trigger guard, bolt catch & charging handle. Also standard on each WarZ Series rifle is our enhanced Low Mass Sand Cut Bolt Carrier Group with Nitride Finish. With a variety of models and features the WarZ Series rifles from DS Arms has every angle & detail of the rifle thought out so you don't have to.

Select-fire models available for LEO & Military applications.
